New Media NAS: ICY BOX IB-NAS6220

Share the Joy – Maintain Safety. Anywhere.

The new ICY BOX IB-NAS6220 is a network storage for networking people who love music and movies, who want to share this love with friends and family and who are no IT-experts. The new ICY BOX IB-NAS6220 combines what commonly exists in separation: store your own data; enjoy your own data like movies and music wherever the Internet is available; confer rights to use while maintaining the control.

The NAS6220 has space for two 3.5" SATA HDDs with up to 2 TB. All data can be made available to the home network and are thus accessible through the Samba server. Also the printer server can be shared. For the installation you don't need special IT skills. If you can use a computer you are also fine with the IB-NAS6220. E.g., its user interface is clear and intuitively guiding.

Do you want to enjoy your movies and music even when you are not at home? In the past you had to copy the data and to carry them with you or you had to place them onto an Internet platform. The former was inconvenient, the latter was unsafe. With IB-NAS6220 you enjoy on an own website music or movies you have stored safely at home. You can use this GUI also to manage the entire content.

If you want to share your music and movie enjoyment you can confer individual rights. Thus your data will remain safely behind your firewall.

For the safety of the data stored the IB-NAS6220 has a RAID 1 and a One Touch Backup. With RAID 1 you can secure your data by mirroring ("makes assurance double sure"). With RAID 0 or BIG you can use even the last byte of the memory. Anyway, you can utilize the One-Touch-Backup. That's as much safety as you will not find on any social web platform.

With the new ICY BOX IB-NAS6220 you can share the joys of music and movies without hesitation. The recommended retail price is Euro 189.00 including VAT.

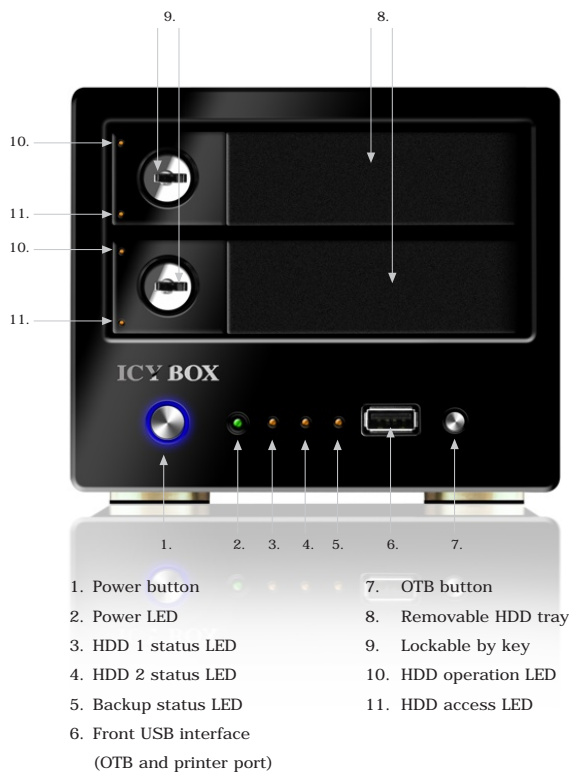

Easy HDD Installation-Mechanism

With the patent-protected screwless HDD carrier you can install your HDD within seconds.

Technical data

Model	IB-NAS6220	Operating system	Windows XP/Vista/Win7, MAC OS > 10.4
Brand	ICY BOX	RAID level	RAID 0, RAID 1 and BIG
Article text	2x 3.5" HDD Network Mediaserver	Data system	EXT4
Colour	Black	Processor	Marvel 6281, 1.2 GHz
Material	Aluminium/Plastic	Flash Memory	Nflash 256 MB
HDD size	3.5"	RAM	SDRAM 256 MB
HDD inteface	2x 3.5" SATA	Button	Power switch, One Touch Backup, Reset
